Your Lagna/ Rising Sign

In Vedic Astrology, the first house in the birth chart is known as Lagna or Rising Sign. It denotes the basic characteristic of the native. The ascendant describes one's personality traits and features, along with the physical attributes and beauty. Born in the Aries Lagna, you have an air of adventure and mystery around you. You like challenges, even if they sometimes sound dangerous to your ears. Your fiery streak keeps you alive and makes you the belle of the ball wherever you go.

You have a strong personality which makes you opinionated. This comes off as a strong character trait in front of your family but does not discourage you from expressing them openly.

Your Horoscope and Career

The key to having a good career is maintaining integrity. You love to be in limelight and the career that suits you best will be something on

those lines. Your strong will to achieve heights in life will keep you motivated throughout your journey. You are determined, hardworking and loyal to your work. Your aesthetic boasts about confidence and strong willpower. Your ambitious attitude will help you achieve a lot more than you anticipated in life. You are a great friend to all those who are in dire need of support. But when it comes to vengeance, you will no stone unturned. Your thought process will wither move eyebrows or mountains, but will not let you sit back and look at like an audience member.

Your 10th lord of profession Mars is placed in the 6th house and is debilitated (adverse) in the horoscope. By virtue of the improved position of Mars in D-9 chart, the adverse effects have been minimized to an extent. But on the other hand, the Mercury-Ketu conjunction with Mars in the 6th house of service indicates that your life shall not be free from enemies who will give you a hard time when the situation is already way too challenging for you.

You shall rise in life through constant hard work and sensible planning. Your ability to cut through the competition and manipulate people around you would provide you with an upper edge over everyone else.

Favourable time to plan a Job Shift

As per the current planetary alignments, the time isn't in your favour. You might feel disturbed at work due to the forces of the malefic planets working hard right now. This will continue for almost 3 months as per your birth chart, but there's still hope.

To plan a successful job shift you need to be at a secure social standing. The time at the moment predicts sudden financial losses due to you being an emotional mess. Keep tabs on your stress and do not overexert yourself. Take some matters off your hands to get better access to a new job. The best time to plan a job shift would be between July- September. In this duration, you will have ample

resources at your disposal and would work diligently to get the job of your dreams. As per the Transit Analysis, the period after September would keep you in high spirits with a tinge of boastful attitude. You will strive forward in your arena, but this again would not be the time when you decide for a job change. Another period where you can consider changing your job would be in the mid of November to early December.

Positive And Negative Outlook with respect to your Kundli

With Saturn aspecting 10th house of Profession and own sign of retrograde Jupiter, you shall always remain dissatisfied with your growth. Despite the constant success at the work front, you will have a hard time coping up with all of it. You might take all the success to your head which could prove to be a problem.

You love money and the advantages it brings with itself, but you tend to take the acquisition of money as a challenge and this often leads to deviate from set targets. If you can restrain yourself from this success shall be surely on your way.

Career Obstacles & Problems

You cannot be a slave to anybody. Because of this quality, you will not take up a job which involves subordination in its true meaning. You cannot be a 'yes master' even to your boss.

Self-respect and dignity are foremost for you. Any adverse comment on this jolts you down to tackle the things. You are a person who has risen in life from bottoms. There is no sheer luck for you. You will rise gradually with age. Stability in the professional sphere shall be there by 42nd year of age. At that time you can

expect a one-way ticket to your own wonderland. You have always been the one who likes taking leadership, but when things fall down you tend to mope about it. Instead of this, you could've gone for a similar approach but with more charm, one where you take responsibility and find a solution. Your obstacles will be close to the sphere of you not looking out for answers.
